THE PACIFIC COAST AND THE AD-
MINISTRATION.

Senator William M. Stewart has been
interviewed by a metropolitan journal

upon the general subject of the position
occupied by the Pacific coast in national
affairs. Senator Stewart's expressions will
always receive most special attention
because of the statesmanlike qualities of
the gentleman, as well as because of his
broad and ripe experience in public af-
fairs.

He says that in speaking of the Pacific
coast he means that portion of the United
States west of the 100th meridian, a line
about midway between the two oceans.
This gives to the section about one-
half of the territorial area of the United
States. He says that nearly all of the
public lands, and all of the Indian tribes
are included in this area; that nearly all
the mines of precious metals, as well as
base metals, are found in this region.
Thus the territorial area designated by the
Pacific coast, embraces in its territory,
nearly all of the mines of precious metals,
95 per cent. of the unsold lands in
the public domain, all the Indian tribes,
and thus a vast realm of executive admin-
istration relates to matters local to the
territory under consideration. Mr. Stew-
art says very properly: "It goes without
saying that local information is necessary
to the proper administration of the
laws of a new and growing country like
this. But strange as it may appear, there
is no man holding an office in any Exec-
utive department of the Government at
Washington, who resides in the western
half of the territory of the United
States."

When this state of affairs is duly con-
sidered, it constitutes a most sweeping in-
dictment against the administration of the
Government. The territory in question
has vast resources, but their development
is dependent upon policies, the origination
and application of which are new to this
country. It is within the lines of con-
servative statement to say that the coun-
try lying west of the 100th meridian is
capable, under proper development, of
maintaining a denser population than the
area east of this line. It follows then
that it is destined at some future time to
contain a majority of the inhabitants of
these United States.

The denial to it of representation in ex-
ecutive councils, and participation directly
in executive administration, discloses the
existence of a sectionalism in the Govern-
ment, indefensible upon any just ground,
and unjustifiable by any worthy considera-
tions.

The spirit of selfishness, to which the
facts disclosed by Senator Stewart's state-
ment are referable, is not new to this
country. From the very first the older
settled portions of these United States
have looked upon the new territory in the
light of conquered or tributary provinces.
When the motion was made before the
Congress of the United States in the first
instance for the admission of a State into
Federal relation on terms of equality with
the original thirteen colonies, the motion
was carried by a majority only. The op-
posing minority declared that it was not
safe for a political party to defy the
moral sentiment of the people." But they
do, and the worst of it is, that for a time,
but the party succeed in such defiance.
But the party that is nearest in accord
with the moral sentiment of the people
are given to understand that they are
likely to be locked up because they reveal
reality to their appearance when wanted.
Why their depositions have not long since
been taken is unexplained, and we venture
the assertion that it is unexplainable in
a court of law.

There are witnesses confined in the jail
in San Francisco who have been thus
privated of their liberty for four months,
and when we are assured they are
accused as being criminals, because
they are strangers, they cannot give
bail for their appearance when wanted.
Why their depositions have not long since
been taken is unexplained, and we venture
the assertion that it is unexplainable in
a court of law.

The disbandment of one of the Clans of
the Clan-na-Gael and the destruction of
its records is nothing less than a confession
on its part that it could not afford to have
its relation to the Cronin murder examined
under judicial process. It was this
Clan of which Cronin and Burke were
members. That its membership should
be given to understand that they are
likely to be locked up because they reveal
reality to their appearance when wanted.

It is to be hoped that the Governor of
Louisiana will adhere to his purpose to
prevent the two brutes, Sullivan and
Kilrain, from conducting a prize fight in
that State. The Governor has not the
power to suppress the infamous lottery of
his State, but he probably considers that
the added risk of a prize fight is just
the strain too much.

The New York *World* says: "It is
never safe for a political party to defy the
moral sentiment of the people." But they
do, and the worst of it is, that for a time,
but the party succeed in such defiance.
But the party that is nearest in accord
with the moral sentiment of the people
are given to understand that they are
likely to be locked up because they reveal
reality to their appearance when wanted.

NOTE AND COMMENT.

Some of the newspapers of the State,
commenting upon the appointment of
Charles N. Fox, as a Justice of the Supreme
Court, have committed the error of saying
that he was a member of the last Constitu-
tional Convention. Mr. Fox was not a
member of the Convention, but he was a
member of the Legislature during the first
session of the Legislature after the adoption
of the new Constitution.

balance of political power in the State.
But the extirpation of slavery has entailed
a new condition, and of this condition the
single fact stated by Senator Stewart, that
one-half of the territory area of the
United States is without representation in the
executive administration of the country,
is a complete exponent.

The Senator, with his usual lucidity
and directness, goes to the very core of
this subject by declaring that the conduct
of the delegates to national conventions,
both Democratic and Republican, is
responsible for this state of things. Just
after the meeting of the Chicago Conven-
tion we took the liberty of pointing out
the grave errors which had been committed
by the Pacific coast delegation to this
body. If the fifty-two votes in that Con-
vention had been concentrated upon a
Pacific coast man for the Presidency, then
minimally, as it were, the Pacific coast
had a chance for national recognition, and if those fifty-
two votes had stood solid for this Pacific
candidate until all hope of his nomination
had been lost, and had then, with the
same solidarity, changed its vote to some
other candidate, whether the candidate
of their choice had been chosen or not,
defeated, the influence of our section of
the country would have been plied
further afield.

Recently the Congress of the United
States has accorded to the territory lying
west of the one hundredth meridian a
measure of interest relating to its aird
lands. That concession is far more
aggressive than that of San Francisco or
Stewart than to the existence of the re-
development of the territory beneficiary of
the measure.

Throughout the entire realm of social and
political being, concessions are made to
power, not to weakness, and concessions
will be made to the political rights and material
interests of the Pacific section in propor-
tion to its potency as a factor in political life.
The potency is dependent solely upon unity of action; it is
dispersed and destroyed by division and
dissension.

NOTES GATHERED AMONG THE SEVERAL DEPARTMENTS.

Powers of Supervisors to Create Funds
—The Governor Yet Ill—Appointments—Incorporations—Etc.

Attorney-General Johnson on yesterday sent the following opinion to W. A. Howell, County Auditor at Bakersfield: "Replying to yours of the 14th instant, I have to say that the Board of Supervisors are authorized to establish such county funds as they may deem necessary, and to transfer moneys from one fund to another, as the public interest may require, but I have not been able to find any provision of this kind in respect to road district funds."

In answer to an inquiry of G. H. Phair of San Jacinto, the Attorney-General has notified him that the office of a Notary is declared vacant when he ceases to be an inhabitant of the county for which he was appointed.

G. E. Stewart, President of the Humboldt County Horticultural Society, was also informed that within twenty days after the withdrawal of the Board of Supervisors of his county, a proper petition for the appointment of a County Board of Horticultural Commissioners, it was the duty of the Board to select three Commissioners, and that a warrant, so a notarium will be issued against the Board to compel them to do this duty.

THE GOVERNOR'S OFFICE.

Governor Waterman is still ill and Private Secretary Boruck says that the (Governor) will undoubtedly not take part in the trials which are to begin on July 4th. The staff will, however.

C. E. Grunsky, of Sacramento, has been appointed and commissioned a member of the Examining Committee for Rivers and Harbors. Captain William Hall, who was identified by reason of holding a Federal office, Mr. Hall is the Government employ as Assistant Consulting Engineer of Irrigation of Alaska.

The Governor yesterday appointed the following Notaries Public: John E. Gleeson, Chico; T. B. Pierson, San Bernardino; R. E. Tappan, Lancaster; Sam'l Clinton Cregton, San Jose.

The Governor has signed land patents as follows: Grant of 16th and 36th sections of the Metropolea to the State of California, with a condition that the same be held in trust for the State. The land is in the shape of a triangle, bounded on the west by the San Joaquin River, on the east by the Sacramento River, and on the north by the San Joaquin River. The land is in the shape of a triangle, bounded on the west by the San Joaquin River, on the east by the Sacramento River, and on the north by the San Joaquin River.

Marcus D. Boruck says that the investigation of the Polson Prison affairs will probably be postponed by the Governor till at least July 10th, and possibly to the 22d.

COUNTY SETTLEMENTS.

The following county settlements were made into the State Treasury yesterday: Sacramento, \$1,082,800; San Joaquin, \$1,082,800; Fresno, \$1,082,800; Judge Swain, of Stockton, paid in \$55,100, as fines imposed for illegal fishing.

COMPANIES INCORPORATED.

NOT A SUCCESS.

A Brighton Humorist Undertakes to Play a Practical Joke.

Sheriff McMullan was the innocent cause of a sensation in a usually quiet household at Brighton the other evening. He started out to serve a Court summons on John Rooney of that burg, in a land case, and also to serve some papers in a divorce suit on a party who lives a few miles farther on. He called at the Rooney farm in the evening and drawing from his pocket a formidable-looking document, embellished with Court and Notarial seals, presented the same to his host, who, with the left eyelid involuntarily cocked itself upward for an instant and then resumed its normal position, while the right-hand corner of his mouth at the same time crawled upward as he uttered his first words of greeting. "The Brighton Outrage."

Andy Woodson, the man charged with having committed a criminal assault on Ethel Kearn, a five-year-old child, near Brighton, a couple of weeks ago—and whose arrest was published in these columns yesterday—was taken before Justice Devine yesterday, who remanded him into custody before the time of his trial, which was set for to-morrow. The court, however, adjourned the trial to a later date, and the parties were adjourned to the Brighton ranch, little dreaming of the drama that was about to be enacted in the Rooney household.

Mr. Rooney, as soon as he received his summons, hastened to the house to serve its contents, when he discovered that he had been served with a summons in a divorce case. His keen native wit, which he had brought to bear on the son of the soil, recommended the stumps to him, and he left eyelid involuntarily cocked itself upward for an instant and then resumed its normal position, while the right-hand corner of his mouth at the same time crawled upward as he uttered his first words of greeting.

An Obnoxious Scow.

Suit has been commenced in the Superior Court of this county by the People vs. A. J. Tait—the Attorney-General having given consent to the use of the name of the State—to compel the defendant to remove a scow which he maintains in the Sacramento river near Grizzly Landing for the purpose of water for irrigating purposes.

It is alleged that the scow obstructs some sixteen feet of the river channel; that it interferes seriously with the navigation of steamers, and that the owner contemplates adding to its dimensions.

The point where the objectionable scow is moored is in Colusa county.

All of this the good lady—wondering what strange spell had come over her husband—said was true, but why did he reheat old things? What's that? said she, as she lay in her lover's arms.

Rooney's heart nearly forsook him at this point, but his humorous proclivities held the master, and he graciously unfolded the "descriptive" document, with its red ink and black ink, and its many legal phrases, and went on to read how Rooney was summoned to appear in the Superior Court on a certain day and said that his wife had been married to him by jail. Smith has yet two years and a half to serve.

At the New Wharf.

The engine to be used in operating the large elevator at the new wharf on the river front at K street arrived yesterday, and will be placed in position as speedily as possible. Work on the construction of the elevator is also rapidly progressing, and the structure will be completed in a few days, instead of the months which the mischivous document, looking like a man who has been committing a midnight raid on a sheep-ranch, or who had tried to do something similar and failed in the attempt.

JUNE WEATHER.

Yesterday's Rain-storm—Interesting Meteorological Data.

The total rainfall for this storm, up to 5 o'clock last night, says Signal Officer Barwick, was: For Olympia .56 of an inch, Portland .15, Fort Canby .50, Eureka .36, Red Bluff one inch, Sacramento .25 of an inch, making for this season .195 inches, as against 11.56 inches for last season up to and including June 30, 1888, which was the last of the season. The barometer, at 5 o'clock last night, was lowest in Washington, Victoria, and highest along the coast of Central California.

The precipitation yesterday makes six times in forty years that a rainfall amount, or in fact anything, to be found in the history of the country, or in the history of our country yet, which you will find a mark of cleanliness, thus assuring you that our poultry is healthy. We invite you to inspect our refrigerator, that you may be assured that our eggs are fresh, clean and free from disagreeable taste, as is often found in fish in warm weather. The gulls are the freshest. Our brands of butter are the best in the State. And our prices are as low as any brands of goods compared, so do not forget the place, California Market, K street.

PARASOLS at greatly reduced prices. Farmers' and Mechanics' Store.

The highest Signal Service temperature

yesterday was as follows for the places reported: Sacramento, 72°; Walla Walla 72°; Spokane Falls 64°; Fairbanks 60°; Portland 68°; Roseburg 66°; Eureka 62°; Red Bluff 66°; and Sacramento 65°.

The highest and lowest temperature in this city yesterday was 65° and 58°, while for the same period in 1888 it was 80° and 59°. The highest and lowest temperature one year ago to-day (the 28th), was 77° and 54°.

JUST LIKE A WOMAN.

Mrs. Sinclair SHILL Refused to Testify Against Her Lord and Master.

The case in the Police Court was held yesterday in the old Wells, Fargo & Co. building, on Second street, between J and K. All of the furniture had been removed from the old Court-room, and it is probable that the new quarters will be occupied for several weeks.

John Sinclair pleaded guilty to being drunk, and was sentenced to pay a fine of \$5, to default to serve a term of five days in the City Prison.

In the petit larceny case against Josephine Macpherson, it was failed to prove an appearance, and the City Attorney asked an attachment be issued for his arrest and that the case go over till to-day. The defense made no objection, and the trial was continued to the 29th.

A. Giles, one of the bondsmen of Mr. Sinclair, charged with battery upon his wife, was continued until next morning. The City Attorney stated that the trial would be delayed in the search for Mrs. Sinclair and her son, but were unable to find them, they evidently being determined to elude the officers of the law.

SACRAMENTO NO. 111.

Receiving Its Finishing Touches—Practically Ready for the Dedication.

Since the publication of the Record-Union's description of the new cathedral of the Blessed Sacrament there has been considerable done in the interior in the way of adding finishing touches. A handsome carpet has been laid inside the altar rail and on the steps leading thereto, and carpet for the sides is ready to be laid this and Sunday, when the dedication takes place. The altar rail is of brass, and the design is unique and tasteful. The communion rail is on the main floor, at the foot of the main steps. It is handsomely and ingeniously designed.

A. Giles, one of the bondsmen of Mr. Sinclair, charged with battery upon his wife, was continued until next morning. The City Attorney stated that the trial would be delayed in the search for Mrs. Sinclair and her son, but were unable to find them, they evidently being determined to elude the officers of the law.

Blessed Sacrament there has been considerable done in the interior in the way of adding finishing touches. A hand-

some carpet has been laid inside the altar rail and on the steps leading thereto, and carpet for the sides is ready to be laid this and Sunday, when the dedi-

cation takes place. The altar rail is of brass, and the design is unique and tasteful. The communion rail is on the main floor, at the foot of the main steps. It is handsomely and ingeniously designed.

A. Giles, one of the bondsmen of Mr. Sinclair, charged with battery upon his wife, was continued until next morning. The City Attorney stated that the trial would be delayed in the search for Mrs. Sinclair and her son, but were unable to find them, they evidently being determined to elude the officers of the law.

The opening argument of the prosecution

superior Judge Armstrong's fatherly advice to the grand jury was listened to with great interest.
